 - *Marleen Janssen Groesbeek*, Avans University of the Applied Sciences
- and other Russian and Foreign scientists, experts of relevant federal and regional authorities and business representatives

IMPORTANT DATES:

7 September	Submission of Abstracts (100 words)
12 September	Extended Program of the Seminar
28 September	Early Registration
30 September	Seminar
30 October	Extended Abstracts for Seminar (Proceedings)

Rules for authors of the abstracts:

Summary should contain 5 to 8 sentences. The size of your summary depends on the volume of information, its scientific significance and practical use. The number of words should be 100.

List of key words should contain 5 to 7 items separated by semicolon.

Information about the author should contain job position, regalia and location using subjective case together with personal details and contact information.

Example of the abstract:

*Pakhomova Nadezda Victorovna
Professor, doctor of Economics, St.-Petersburg State University
n.pahomova@spbu.ru
Malyschkov Grigorij Borisovich
PhD in Economics, Associate Professor,
National Mineral Resources University (University of Mines) St.-Petersburg
greg.malyshkov@gmail.com*

SUPPLY AND DEMAND OF ENVIRONMENTAL INNOVATIONS: INSTITUTIONAL SUPPORT UNDER CONDITIONS OF INTRODUCTION OF THE BEST AVAILABLE TECHNOLOGIES

Summary: In this paper the institutional support to create supply and demand for environmental innovations makes up the main focus of the author. The main role played by the Federal law № 219-FL is analyzed. By this law the process of the introduction of the best available technologies is regulated. The analysis of the mix of the environmental policy instruments by the authors reveals the need for some clarifications and completion on the basis of the OECD recommendations. This concerns the barriers to environmental innovations, the balancing of their supply and demand as main component of the Russia's renewed Innovation strategy and the modification of Russia's Energy strategy towards a low-carbon economy and the decrease of greenhouse gas emissions.

Keywords: supply and demand for environmental innovations; innovation paradox; best available technologies; ecological externalities; institutional support; environmental policy mix.

Submissions:

Prospective participants should submit an abstract by e-mail no later than 07 September 2016.

Please send it to envecon.lab@spbu.ru

The Seminar details are available:

On the Laboratory website www.envecon.lab.spbu.ru
